CLAIMS

DRAWINGS

1. A viral vector comprising a nucleic acid sequence encoding a protein, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	2. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	3. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.
4. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	5. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	6. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.
7. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	8. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	9. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.
10. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	11. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.	12. The viral vector of claim 1, wherein the nucleic acid sequence is flanked by terminal repeats, and wherein the protein is a viral protein.
